EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Alan Hodes on 12/9/05.

The application has been amended as follows:

- In lines 4 and 5 from the bottom of claim 2 the phrase "the elastic oscillating plate" has been changed to --the oscillating rubber elastic plate-- to maintain consistent terminology.
2. The following is an examiner's statement of reasons for allowance: Tanahashi, as modified, fails to include the limitation of the partition rubber plate fluid tightly partitioning the pressure receiving chamber and the oscillating chamber from each other and fails to include the limitation of the partition plate and the oscillating rubber elastic plate being movable independently from each other as required by amended claim 1. Accordingly, claim 1 is allowable. Claims 2 and 3 are allowable due to their dependency from allowable claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
